    deviceCli = ibmiotf.device.Client(deviceOptions)
    #.....

```

The screenshot shows a Windows desktop with a taskbar at the bottom. The taskbar includes icons for the Start menu, File Explorer, Google Chrome, Node-RED Dashboard, Downloads, and several open applications: a file named 'ibmiotpublishsubscribe...', a 'Python 3.7.0 Shell' window, a system clock showing 25°C, and a date/time display for 'ENG 2002'.

The 'Python 3.7.0 Shell' window is the primary focus. It displays the following text:

```
Python 3.7.0 (v3.7.0:1bf9cc5093, Jun 27 2018, 04:59:51) [MSC v.1914 64 bit (AMD64)] on win32
Type "copyright", "credits" or "license()" for more information.

## 8. Advantages & Disadvantages Advantages:

- Farms can be monitored and controlled remotely.
- Increase in convenience to farmers.

- Less labor cost.
- Better standards of living.

#### Disadvantages:

- Lack of internet/connectivity issues.
- Added cost of internet and internet gateway infrastructure.
- Farmers wanted to adapt the use of Mobile App.

#### 9 .Conclusion

Thus the objective of the project to implement an IoT system in order to help farmers to control and monitor their farms has been implemented successfully.
